Accurate Circuit Engineering, Santa Ana, CA 714-546-2162

ACE is an ISO 9001:2000 certified manufacturer of high-quality PCB prototypes and low-volume production, for companies who demand the highest quality in the quickest time possible. We offer 24-hour turnaround on most PCB prototypes. Orders are accepted up to 8:00 PM Eastern time, 5:00 PM Pacific, and have a wide range of delivery options. ACE, also has received the [MIL-PRF-31032 Certificate](#).

Website: www.palpilott.com

PalPilot, Tustin, CA. 714 460-0718

PalPilot was founded in 1988 and is one of the largest PCB brokers in the United States. They represent over 20 PCB manufacturers based in Asia including ownership in some of the PCB companies in strategic areas of Asia, which enables them to offer unique manufacturing capability, product mix and a high quality product. PalPilot processing and quality engineers are also located in Asia and the USA for service to their customers. PalPilot offers global PCB solutions including being automotive certified along with design service and PCB manufacturing.

Website: www.mcati.com

MC Assembly, Palm Bay, FL. 321-253-0541

MC assembly is a world-class provider of electronic manufacturing services with state-of-the-art production facilities strategically located in the United States and low cost regions. They offer a wide range of integrated support services whether for a virtual company with no internal manufacturing capabilities, or the company with in-house manufacturing looking to outsource for the first time. A cell team supports all programs, which are lead by a senior program manager. The emphasis in the Florida and Mexico facilities are on medium and high volume runs.

Website: www.sigmatronix.com

SigmaTronix, Santa Ana, California. 714-436-1618

Sigmatronix is a one-stop source for electronic contract manufacturing. They offer Lead-Free and BGA rework. Small jobs, low and medium runs are standard. The company specializes in engineering rework and testing services. The founders of the company and staff have over 20 years of assembly experience.
